HOT LINKS

Hot Links offer many efficient options for small homes. Through the inherent flexibility of its organization, the house can accommodate any arrangement of single family, multi-family, office and commercial arrangements.

Two shotgun houses are linked together and able to open, close or store the space between. In the one, each corner room space are created for alternate functions or public living spaces. The flexible boundary between the residences can be used to add an extra room or to divide the living area. The extra of interest gives the house a unique and interesting quality. A complex can result in a single resident's apartment or split the whole house into a duplex. Details are able to increase and decrease from living situations as needed.

The flexibility of the house makes it able to be adapted to a variety of uses and situations while maintaining the same architectural benefits of a more flexible and adaptable structure.
